Design System Lead @ World Food Programme 2025–Present

Building new code-based, AI-ready design system: designsystem.wfp.org

Principal Product Designer @ Sitecore 2022–2025

Unified and co-led Product Design after 5 acquisitions.

- **Design System Lead:** Boosted engineering efficiency and UX quality by creating a code-based design system, blok.sitecore.com. Onboarded 12+ products by promoting it across R&D and supporting development teams.
- **Product Design:** Worked on 10+ products across Sitecore’s portfolio; user research, product discovery, design concepts, UX audits, dev specs, code contributions.
- **Platform unification:** Unified the user experience of Sitecore’s numerous acquisitions, by creating a common brand identity and central [Cloud Portal](#).
- **Principal Designer:** Defining UX standards and practices, and coaching the team.
- **Hiring:** Assessed and hired 7 new designers, with the Product Design Director.
- **Design Manager:** Managed the Product Design team for [Sitecore Content Hub](#).
- **Community of practice:** Co-hosted a monthly CoP between Design and Engineering.

UX Design Manager @ Sitecore 2019–2022

Matured the UX team post-acquisition.

- **Customer-focused process:** Shifted the culture from engineering-first to customer-first, partnering with Product Management, prioritising user needs and end-to-end collaboration between Design & Product & Engineering.
- **Product Design:** Continuously designed and delivered features and improvements to the [Content Hub](#) platform.
- **Mentoring:** Hired and managed a Junior Product Designer.

UX Designer @ Stylelabs (now Sitecore) 2016–2019

Spearheaded UX design at a fast-growing tech startup.

- **Journey to SaaS:** Helped the transition from custom on-premise installations to a standardised SaaS product, by refactoring the product’s frontend into configurable components, reducing maintenance costs and opening SME market opportunities.
- **Bridge-building:** Built a design culture across the organisation, by building close relationships with the engineers and business analysts.
- **UX consistency:** Unified the platform’s user experience by establishing UX design standards and collaborating with Engineering to ensure proper implementation.

Graphic Designer @ Plastoria 2010–2016

Designed website, back-office apps, email marketing, and print catalogues.
